MUHAMMAD AHMED

SOFTWARE ENGINEER

RELEVANT EXPERIENCE

Freelance Project - Jafferi Alliance

December 2024 - Feb 2025

- Documented the entire project requirements and led the front-end development.
- Built a responsive UI using React & Tailwind CSS, ensuring a seamless experience across devices.
- Developed reusable components and efficiently structured code for maintainability.
- Implemented API calls and ensured smooth data exchange with the backend.
- Wrote clean, backend-integrable code, enabling easy integration by the backend developer.
- Created and utilized CI/CD workflows for automatic deployment to GitHub.

Tools and Technologies : ReactJS , Tailwind , Javascript , Github , CI/CD

Front-End INTERN (REACTJS) - MEAN3

July 2024 - Sep 2024

- Migrated complex WordPress front-end designs to ReactJS, enhancing user experience and performance.
- Gained expertise in component structure, code reusability, and clean coding techniques.
- Integrated projects with CI/CD pipelines to automate deployment on GitHub Pages.
- Designed and developed front-end interfaces using WordPress.

Tools and Technologies : ReactJS , Shopify , Wordpress , Javascript , Github , Tailwind, CI/CD

Freelance Project - Auto History Inspection

Freelance / Aug 2024

- Gathered and documented client requirements through direct communication, ensuring alignment with their business needs.
- Designed and developed the responsive front-end using Bootstrap, HTML, and CSS, ensuring cross-device compatibility.
- Collaborated with a teammate who managed the backend development using PHP, Laravel, and MySQL.
- Integrated PayPal checkout system.
- Deployed the website, handled hosting, and set up business emails, ensuring a seamless user experience and professional communication channels.

Tools and Technologies : PHP , Laravel , HTML , CSS , Bootstrap , Javascript
